---

Dear Vincent Briganti,

I am writing to express our objection to the allocation methodology applied in distributing the Settlement Fund, as it deviates from the Court-Approved Plan of Allocation submitted for approval.

Subject: Objection to Allocation Methodology in Distribution of Settlement Fund

- The Plan of Allocation, as submitted to the Court for approval, lacks any mention of segregation regarding eligible Euroyen trades. This absence of clarity in the documentation raises concerns about the fairness and transparency of the allocation process.
- Additionally, there is no indication in any court documents that Dr. Pirrorg declared an intention to implement a "Forward Rate Artificiality." The lack of context surrounding this term further underscores the discrepancies between the approved plan and the methodology being implemented.
- It is evident that the class members, including ourselves, were not adequately informed about the segregation of trades and the concept of "Forward Rate Artificiality" prior to giving consent to the Plan of Allocation. This lack of awareness amounts to deception and undermines the integrity of the allocation process.

We firmly stand by our objection and affirm our sworn declaration that the allocation methodology being employed does not align with the Court-Approved Plan of Allocation.

Please acknowledge your receipt on our Objection to the Court.

Sincerely,

Henry Mok  
Director  
HAP FINANCIAL (SGX TRADER) PTE LTD
